

Certificate course in Accounting and Taxation

Introduction:

Feedback received from the Alumni refuted that to enhance career opportunities for UG student, there is a need to introduce a certificate course in Accounting and Taxation. It was discussed at the IQAC and after due deliberations it was decided that this course be made available to all interested students of all programs. This decision was arrived at with aim to provide basic knowledge and skills required to manage their day to day like. It was hoped that such a training would make our students an involved participants in Accounting and Taxation and later life.

Objectives:

Optimizing Profits

First, a company's income tax accounting should be in line with its operating strategy. That is, to maximize profits a company must understand how it incurs tax liabilities and adjust its strategies accordingly.

Funding Considerations

Secondly, income tax accounting can enable a company to maintain financial flexibility. There are different effects of funding the company's operations with debt and/or equity, and a company's capital structure can influence

its tax liability. Knowing these effects will allow the company to plan accordingly and transitively maintain their financial flexibility by keeping their options open.

Timing of Payments

Finally, accounting for tax enables the company to manage cash flow and minimize cash taxes paid. It is beneficial to postpone payment of taxes into the future, as opposed to paying taxes today. A company will want to take tax deductions sooner rather than later to maximize the time value of their money.
